

Report: Testing hybrid vigor in the lab in response to *Eimeria*

Alice

05 July 2018

Contents

Expe_001, March 2017, Francisca's experiment. infection with E64 and Eflab	2
1. Weight loss	2
2. Parasite shedding	4
3. Comparison host/parasite proxy	6
Expe_002: March 2018, NMRI mice infected with 4 <i>Eimeria</i> strains (Eflab, E88, E139, E64)	7
1. Weight loss	7
2. Parasite shedding	9
3. Comparison host/parasite proxy	11
Expe_003, April-May 2018, first batch Parental strains (F0) BUSNA, STRA, SCHUNT, PWD, infection with Eferrisi (E64 and E139)	12
1. Weight loss	12
2. Parasite shedding	14
3. Comparison host/parasite proxy	16
Expe_004, June 2018, second batch Parental strains (F0) BUSNA, STRA, SCHUNT, PWD, infection with Eferrisi (E64 and E139)	17
1. Weight loss	17
2. Parasite shedding	18

Expe_001, March 2017, Francisca's experiment. infection with E64 and Eflab

1. Weight loss

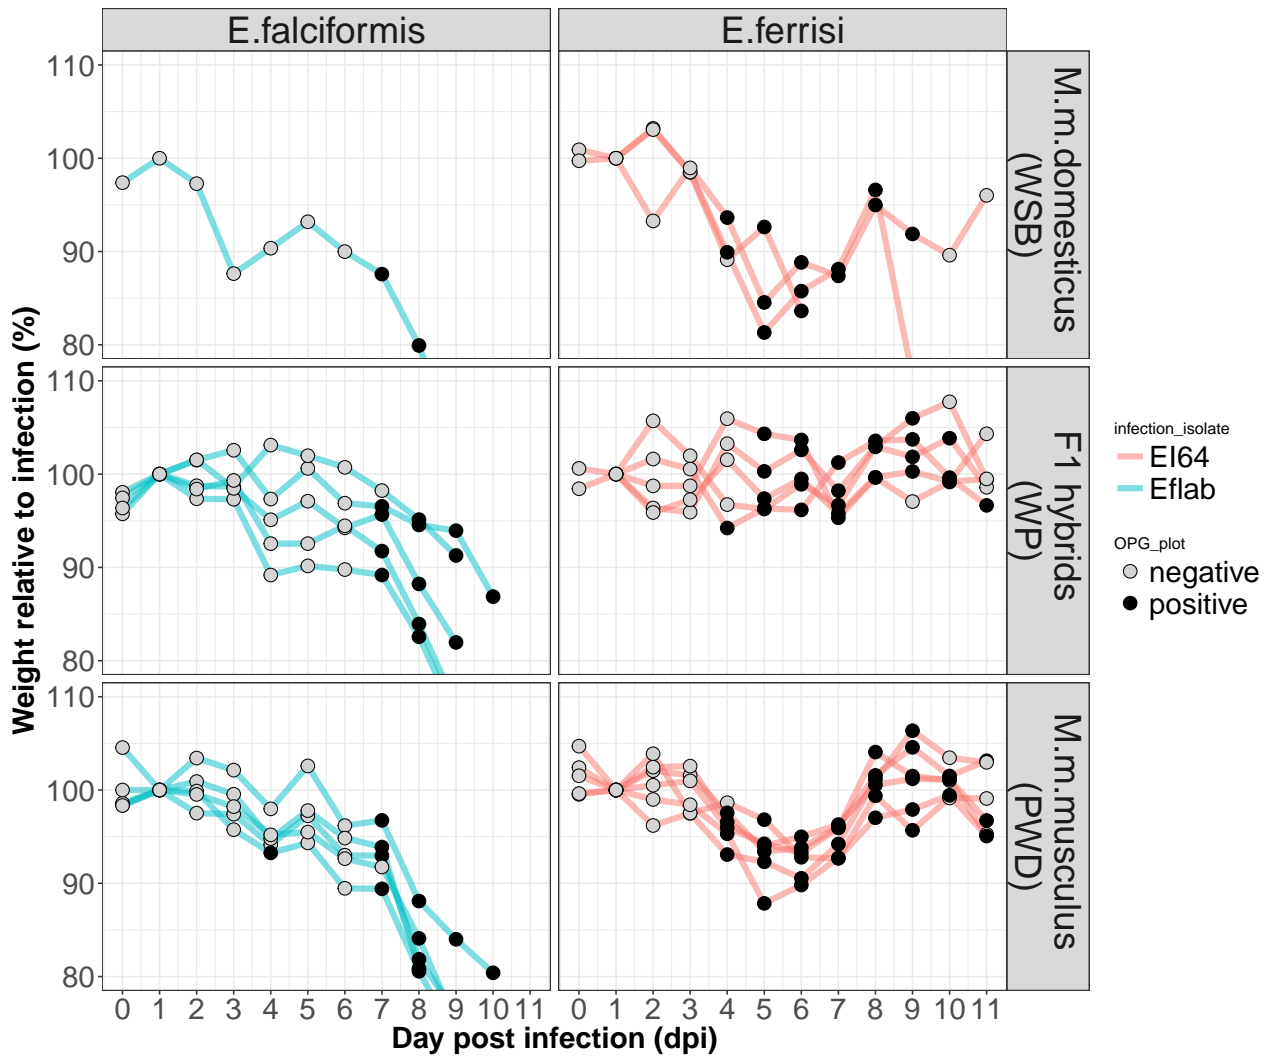

Figure 1: Weight along the infection experiment

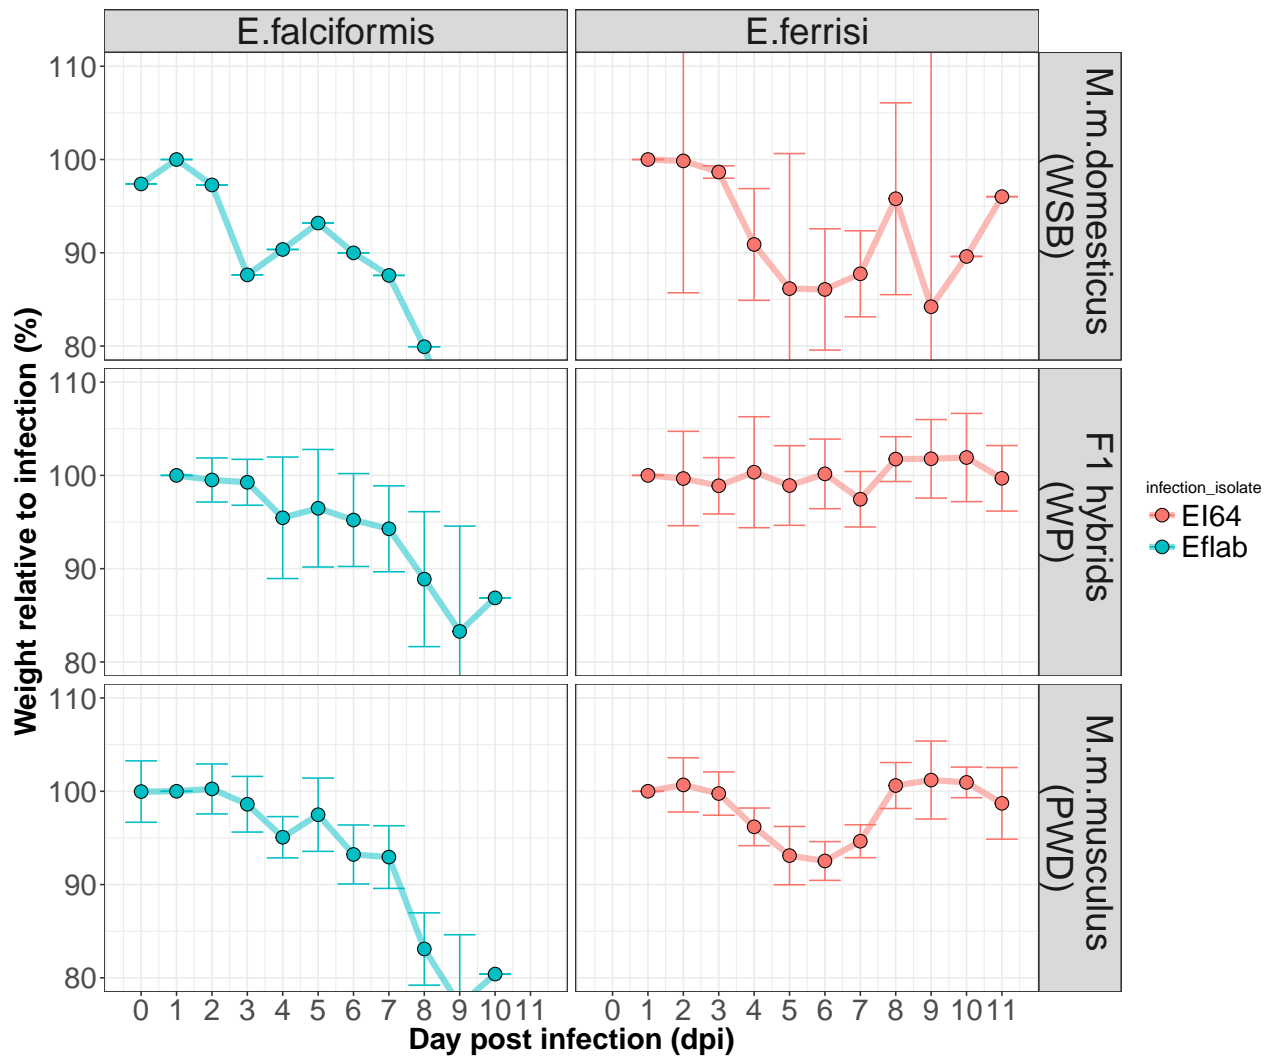

Figure 2: Weight along the infection experiment, mean and 95% CI

2. Parasite shedding

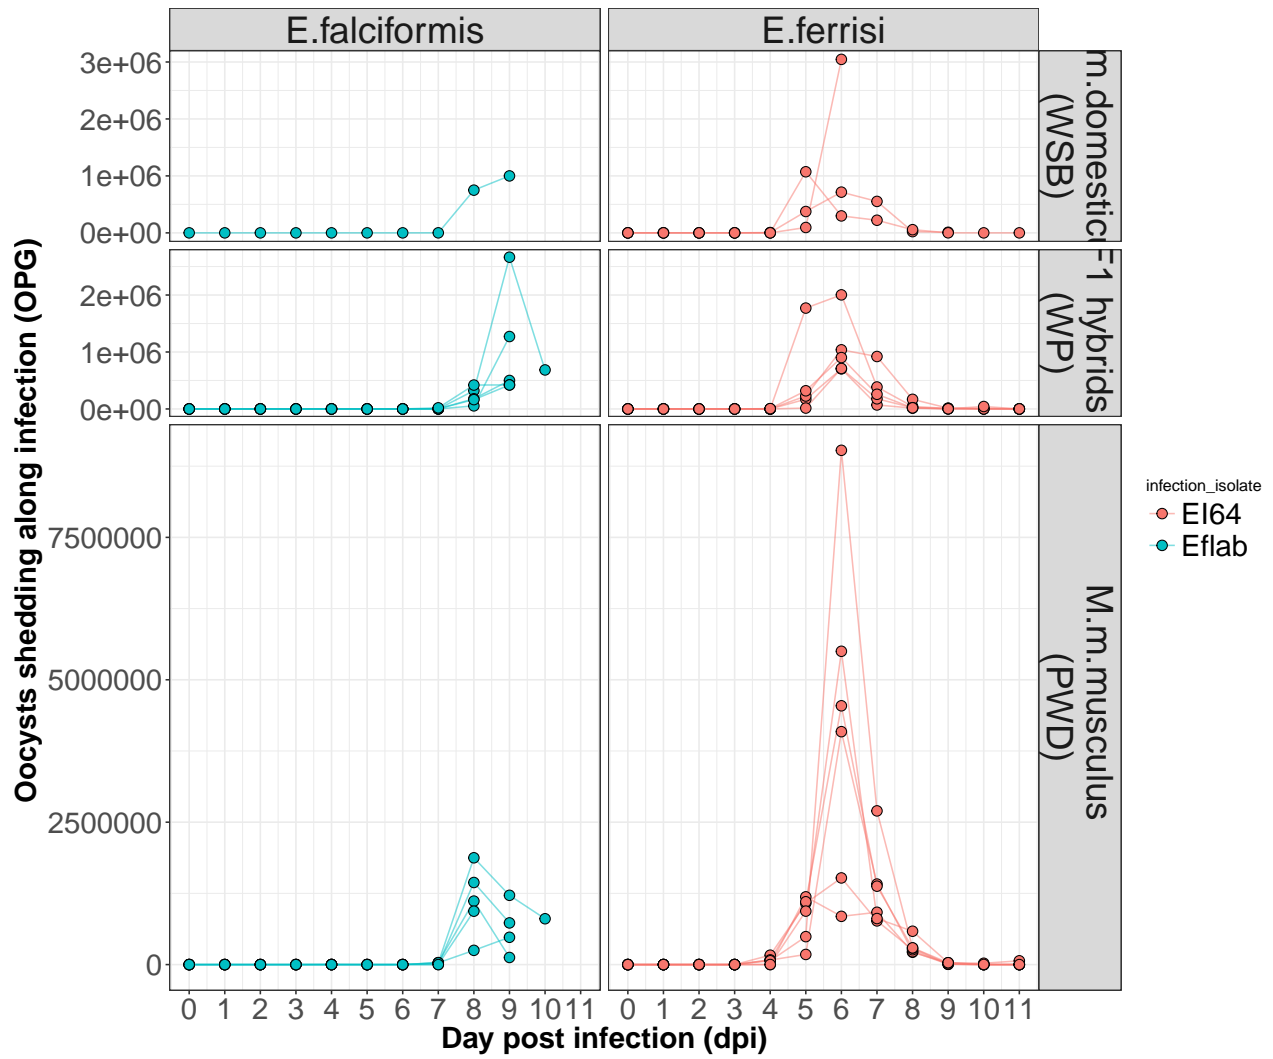

Figure 3: Oocysts shedding along the infection experiment

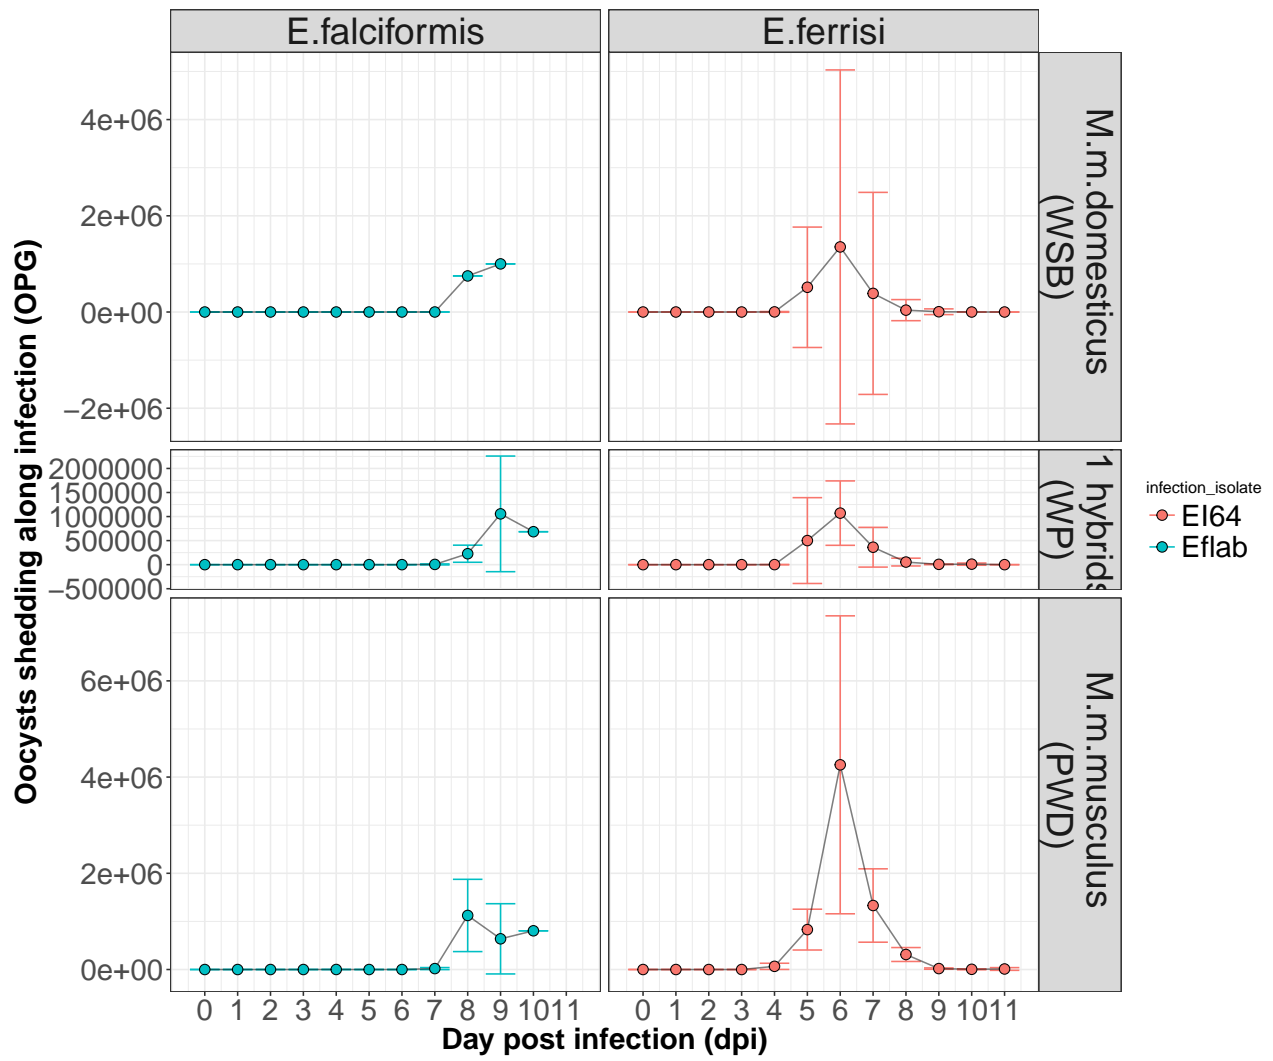

Figure 4: Oocysts shedding along the infection experiment, mean and 95% CI

3. Comparison host/parasite proxy

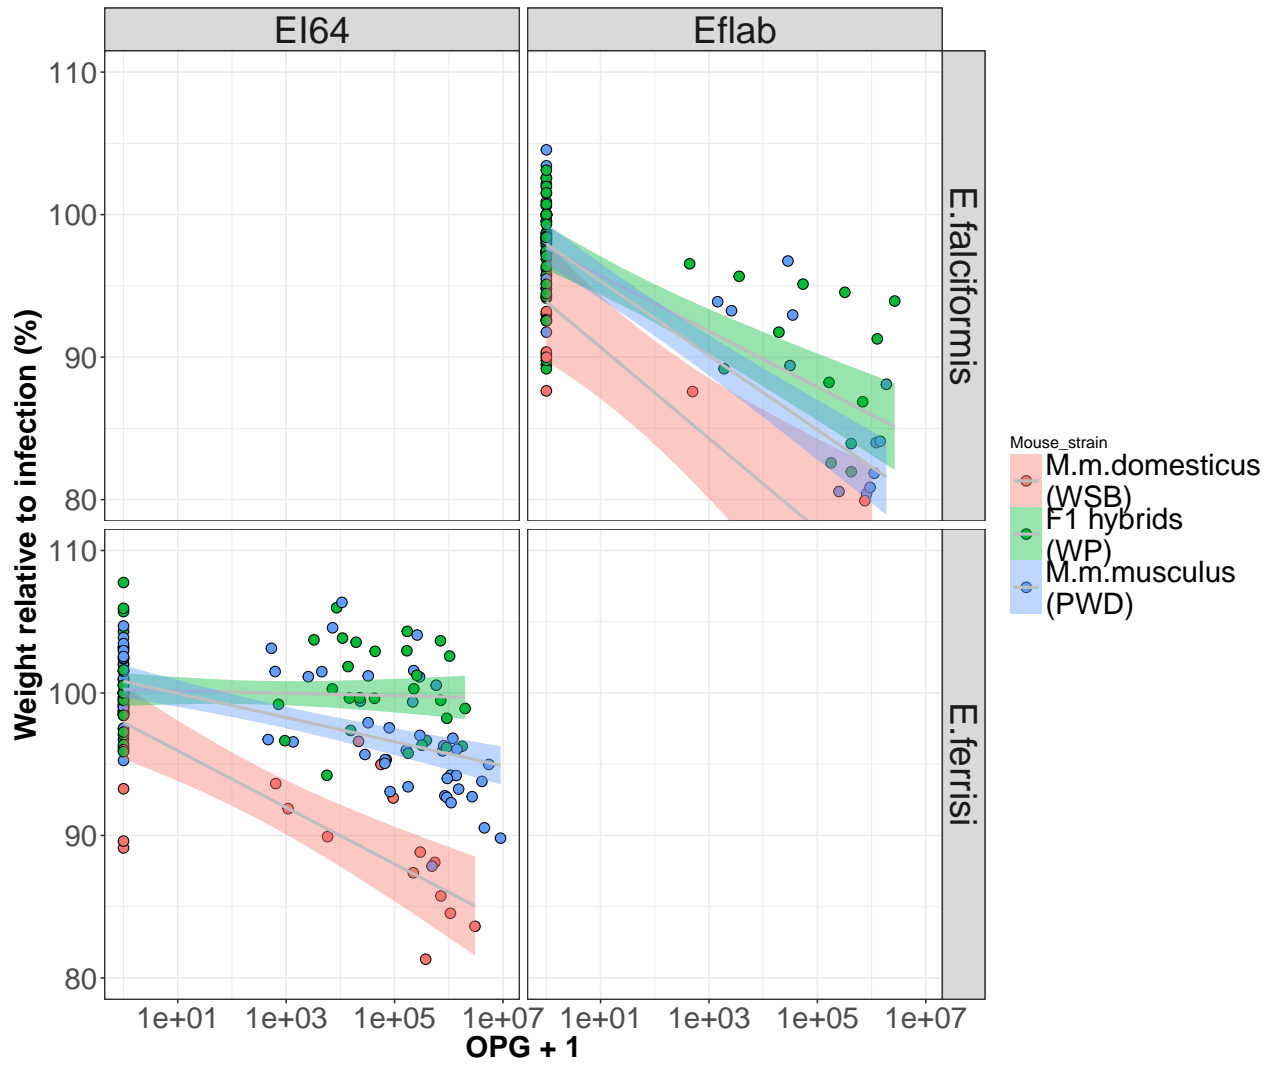

Figure 5: Weight as a function of OPG

Expe_002: March 2018, NMRI mice infected with 4 *Eimeria* strains (Eflab, E88, E139, E64)

1. Weight loss

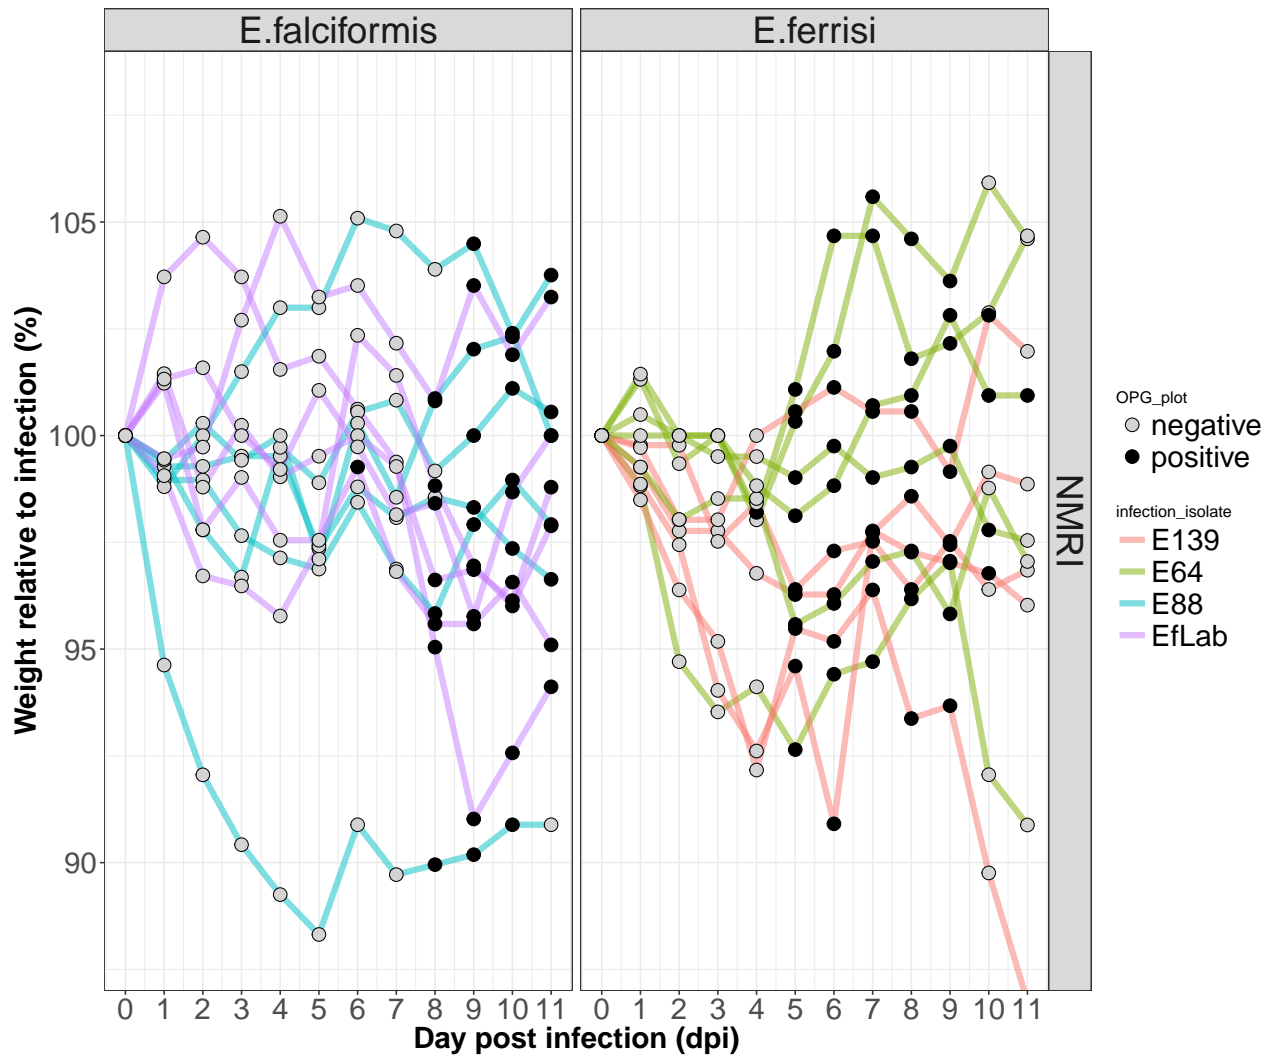

Figure 6: Weight along the infection experiment

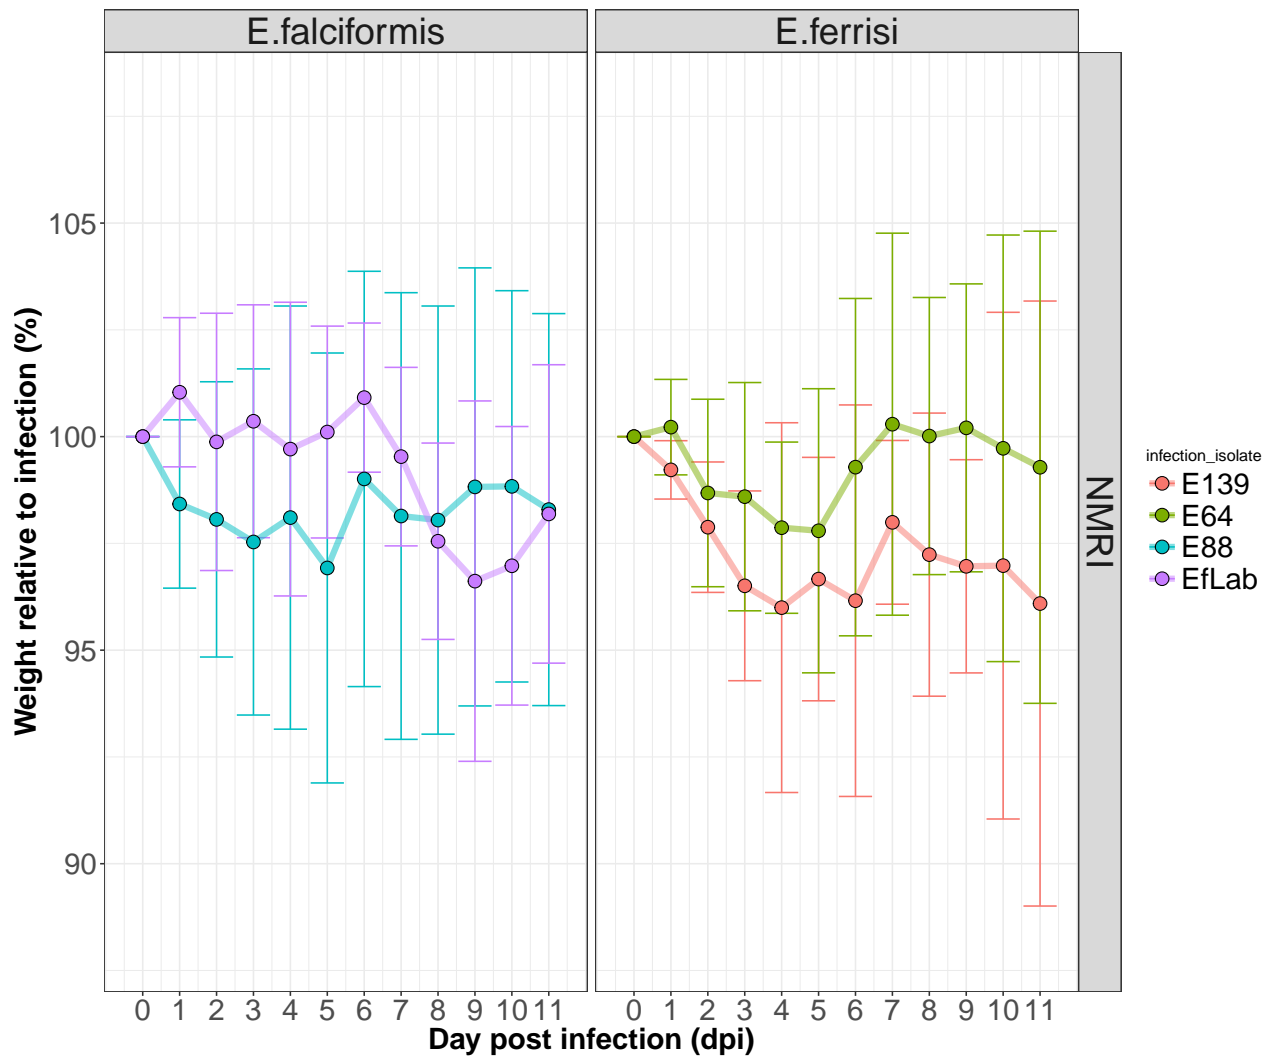

Figure 7: Weight along the infection experiment, mean and 95% CI

2. Parasite shedding

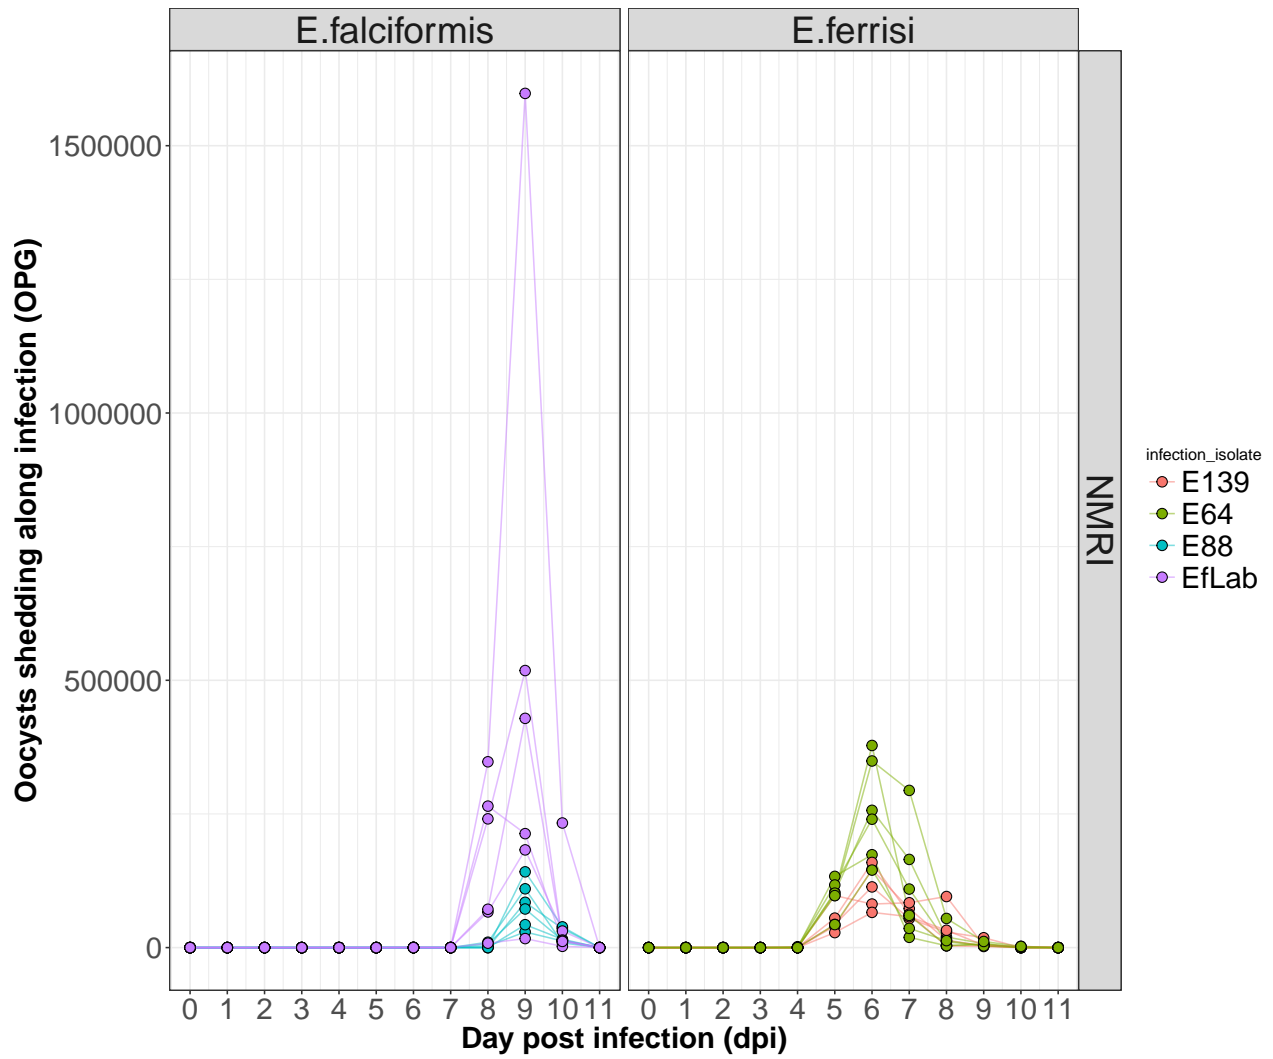

Figure 8: Oocysts shedding along the infection experiment

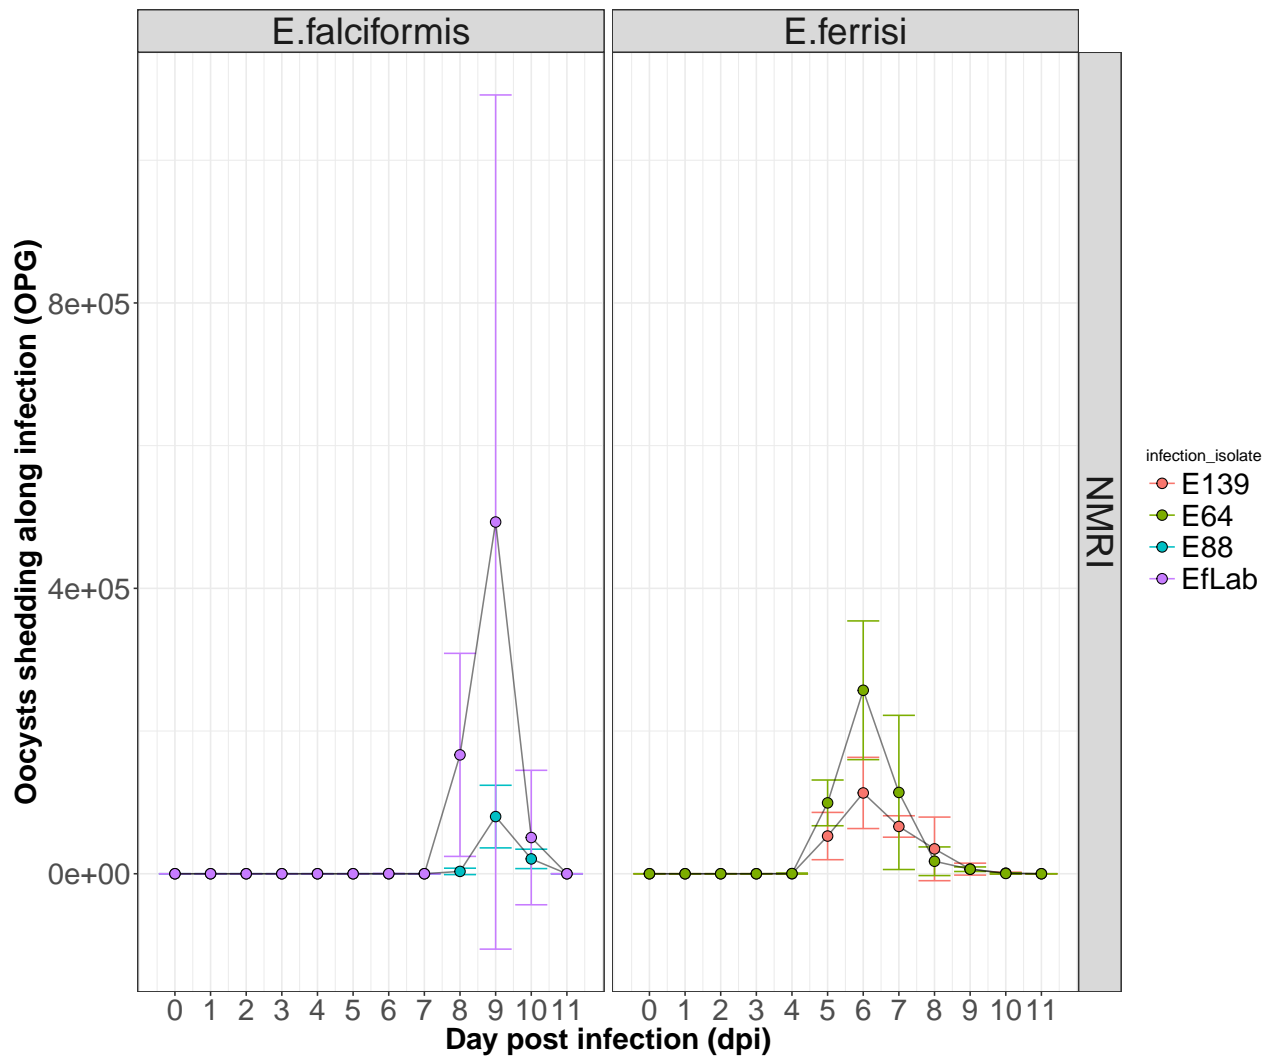

Figure 9: Oocysts shedding along the infection experiment, mean and 95% CI

3. Comparison host/parasite proxy

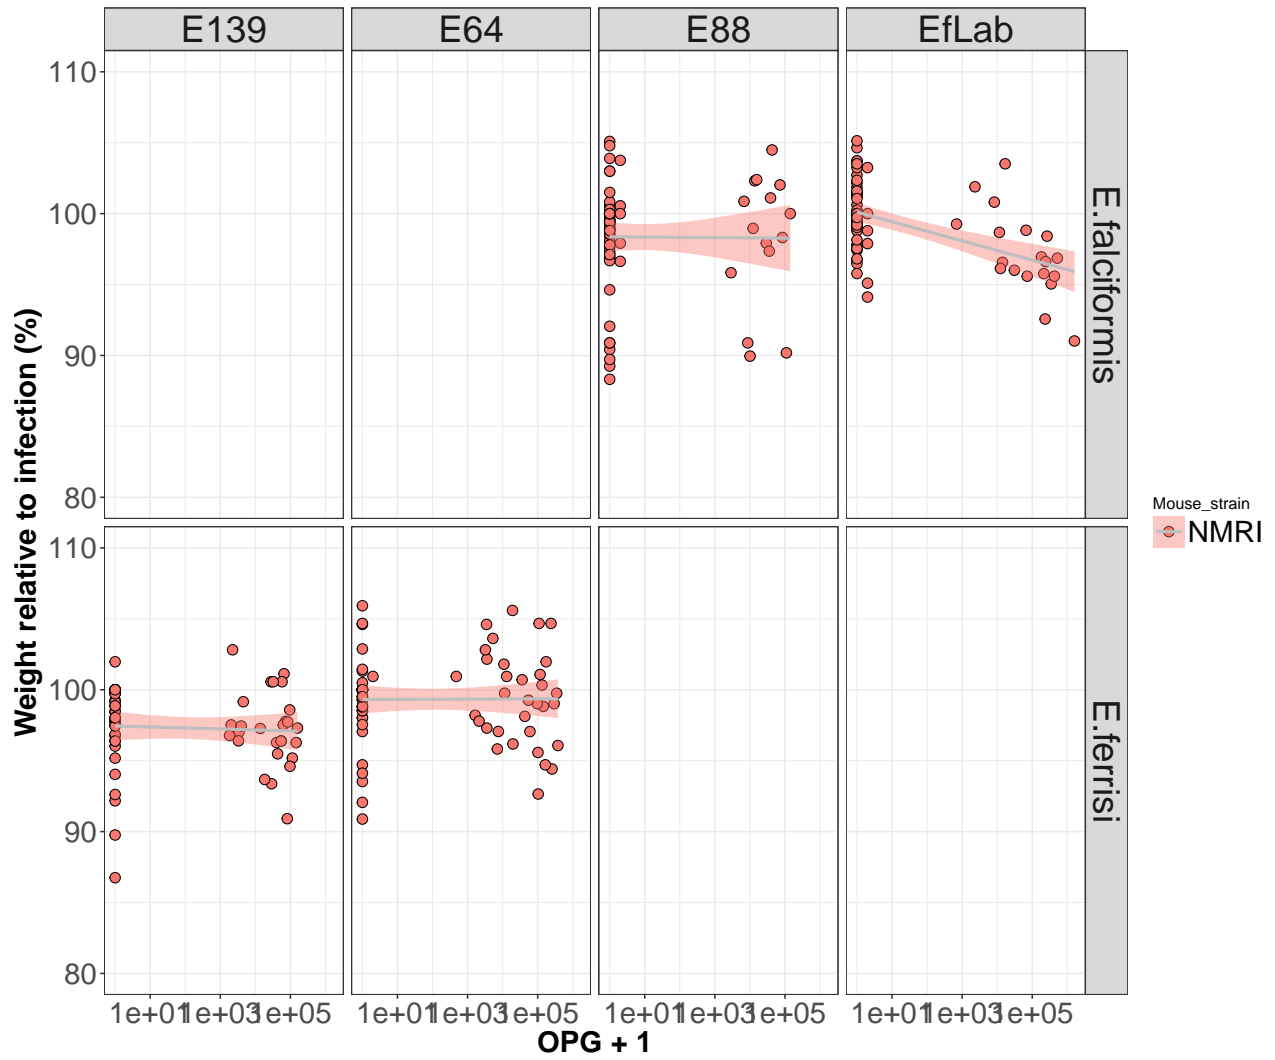

Figure 10: Weight as a function of OPG

Expe_003, April-May 2018, first batch Parental strains (F0)
 BUSNA, STRA, SCHUNT, PWD, infection with Eferrisi (E64 and
 E139)

1. Weight loss

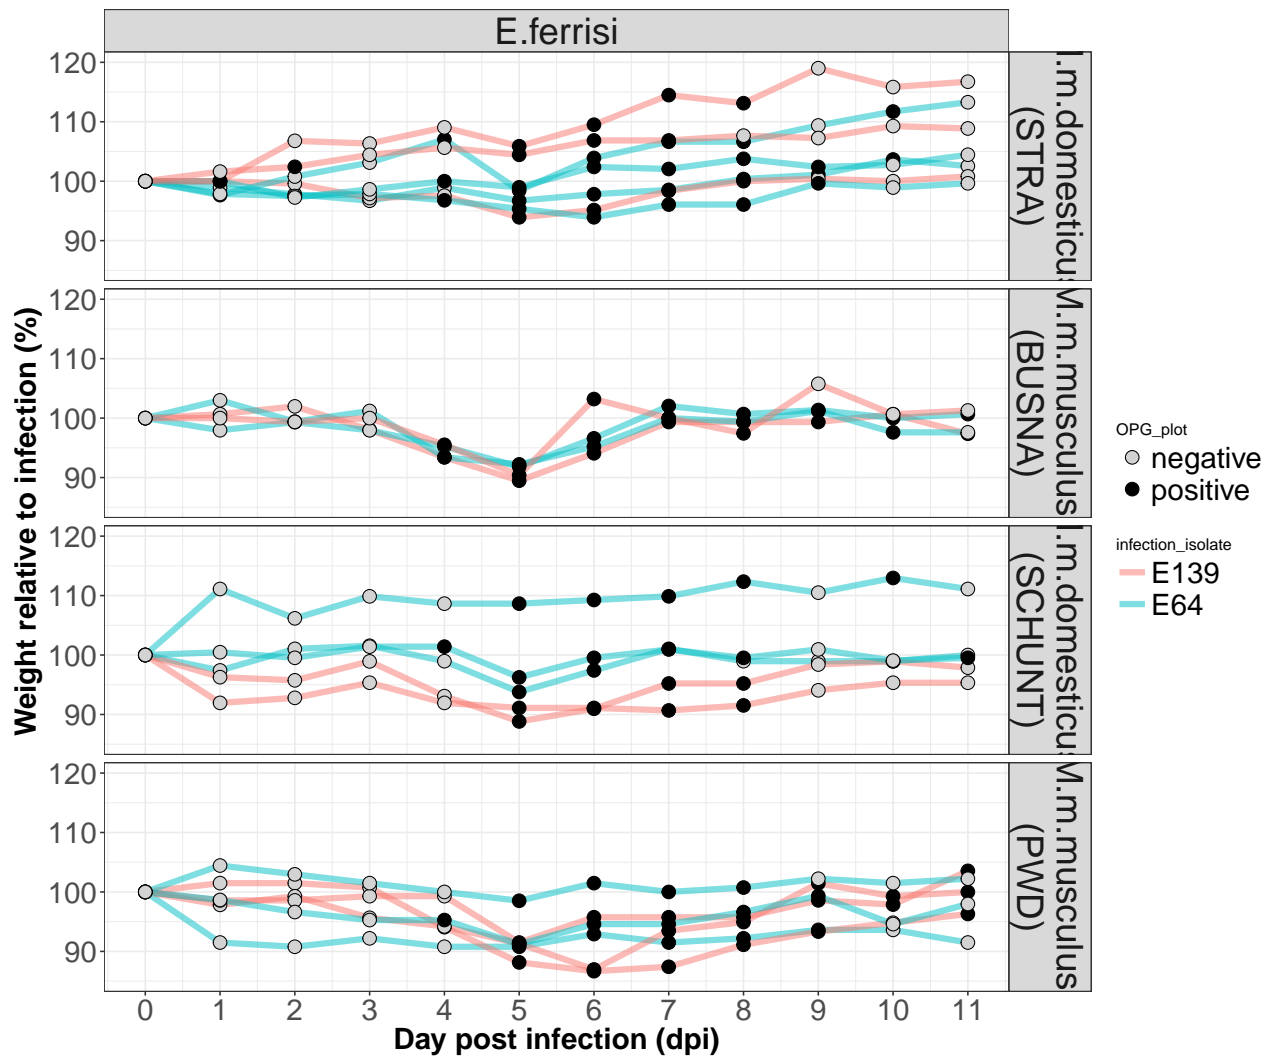

Figure 11: Weight along the infection experiment

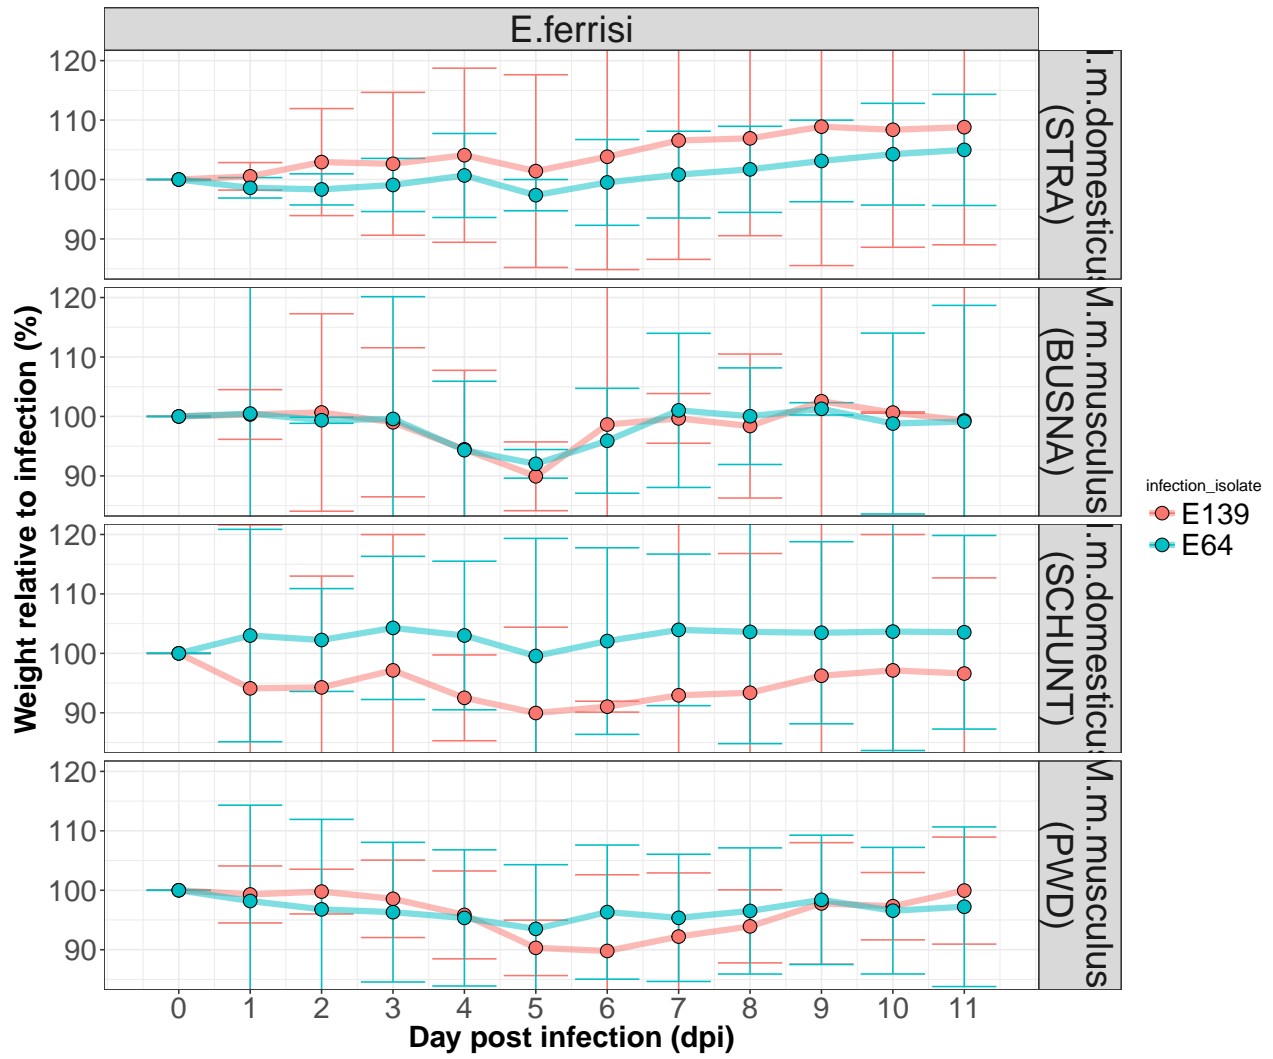

Figure 12: Weight along the infection experiment, mean and 95% CI

2. Parasite shedding

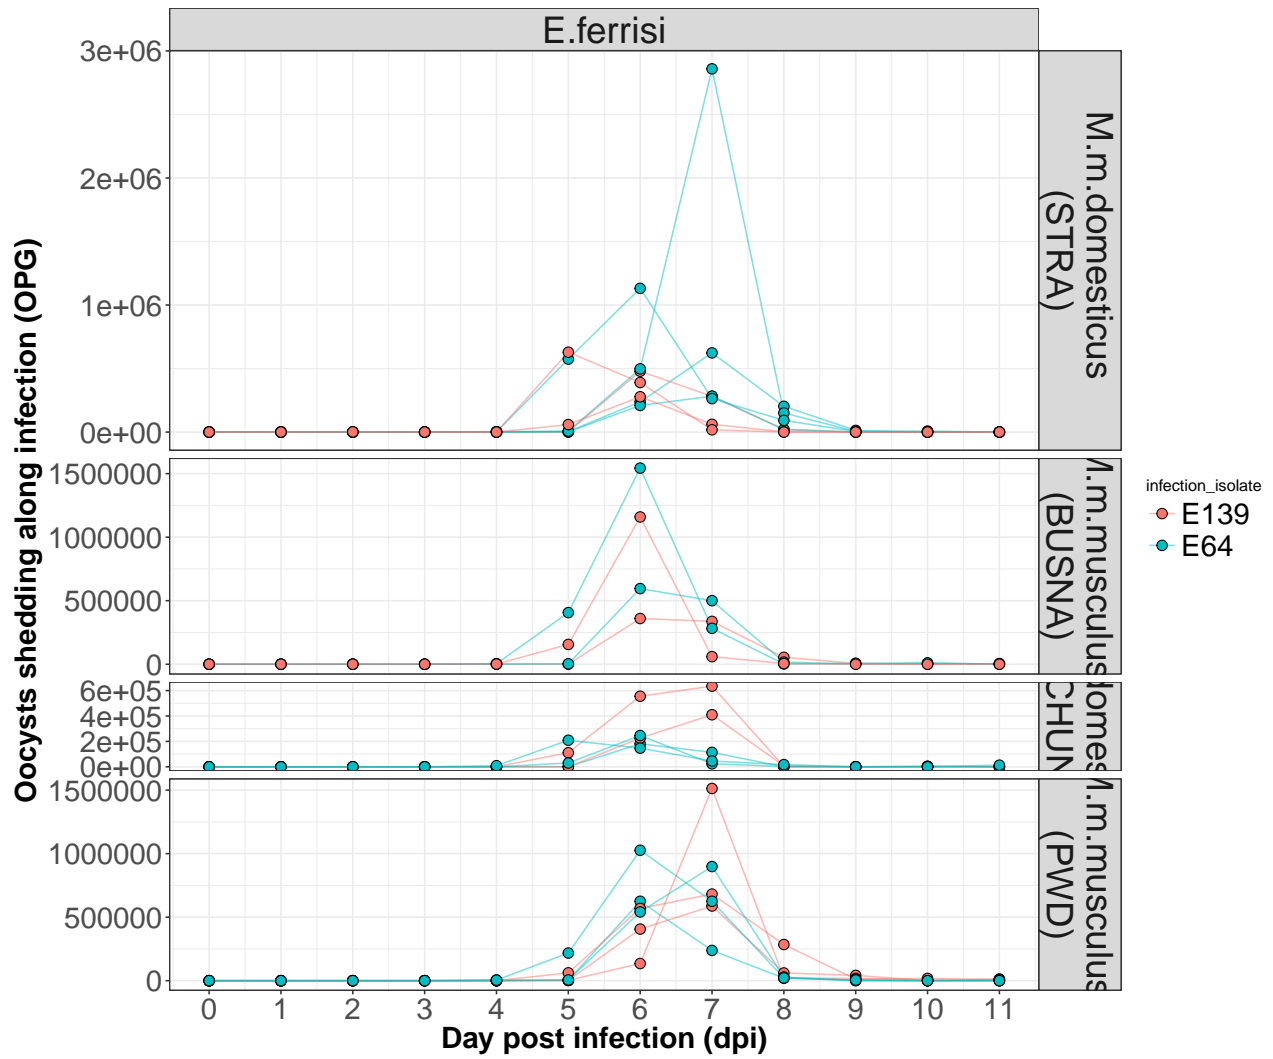

Figure 13: Oocysts shedding along the infection experiment

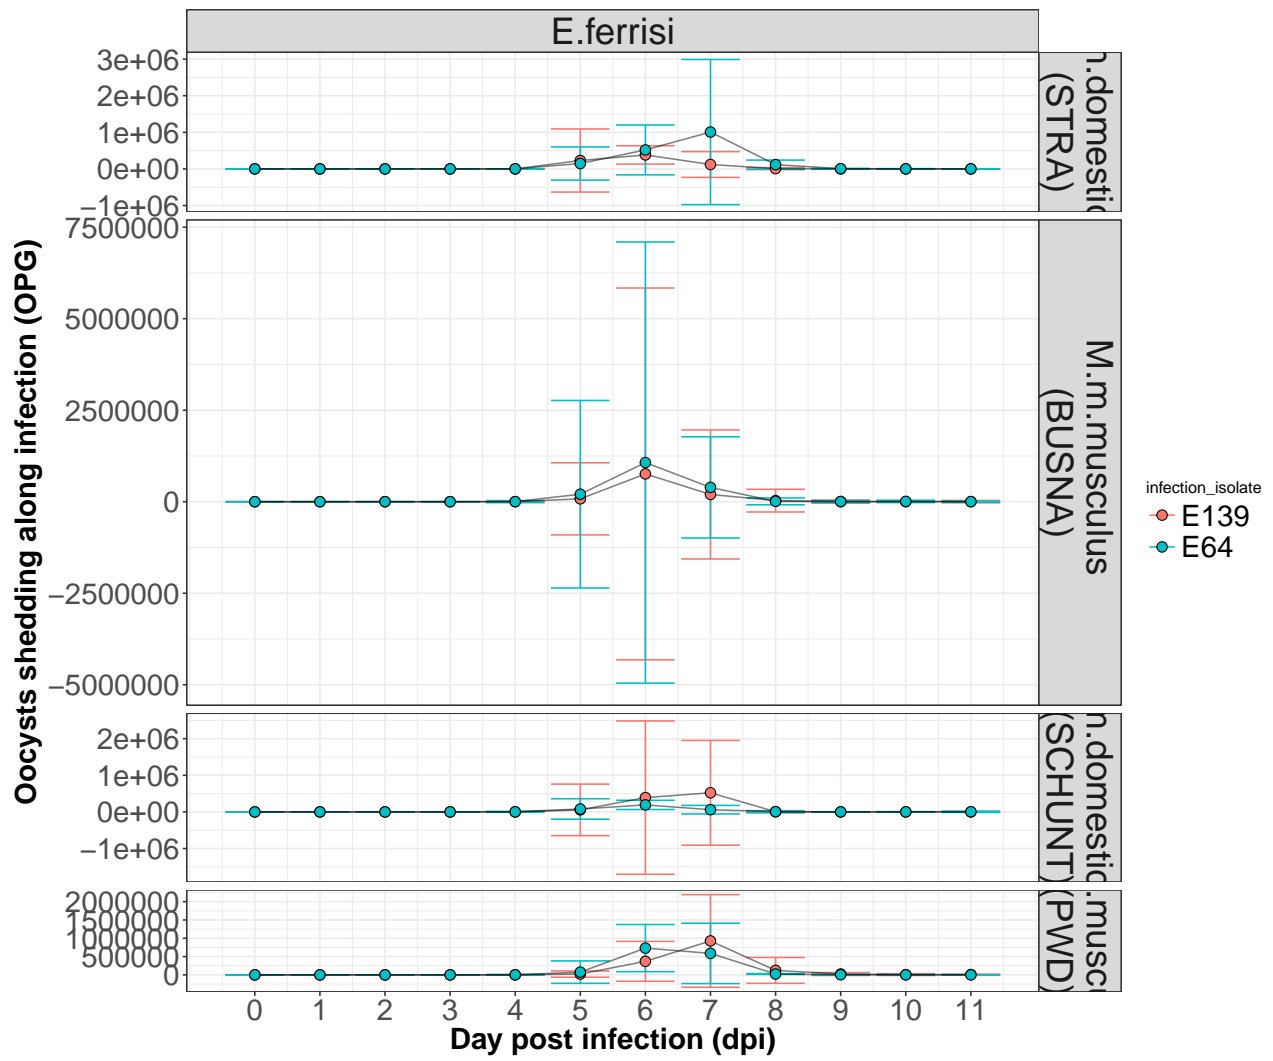

Figure 14: Oocysts shedding along the infection experiment, mean and 95% CI

3. Comparison host/parasite proxy

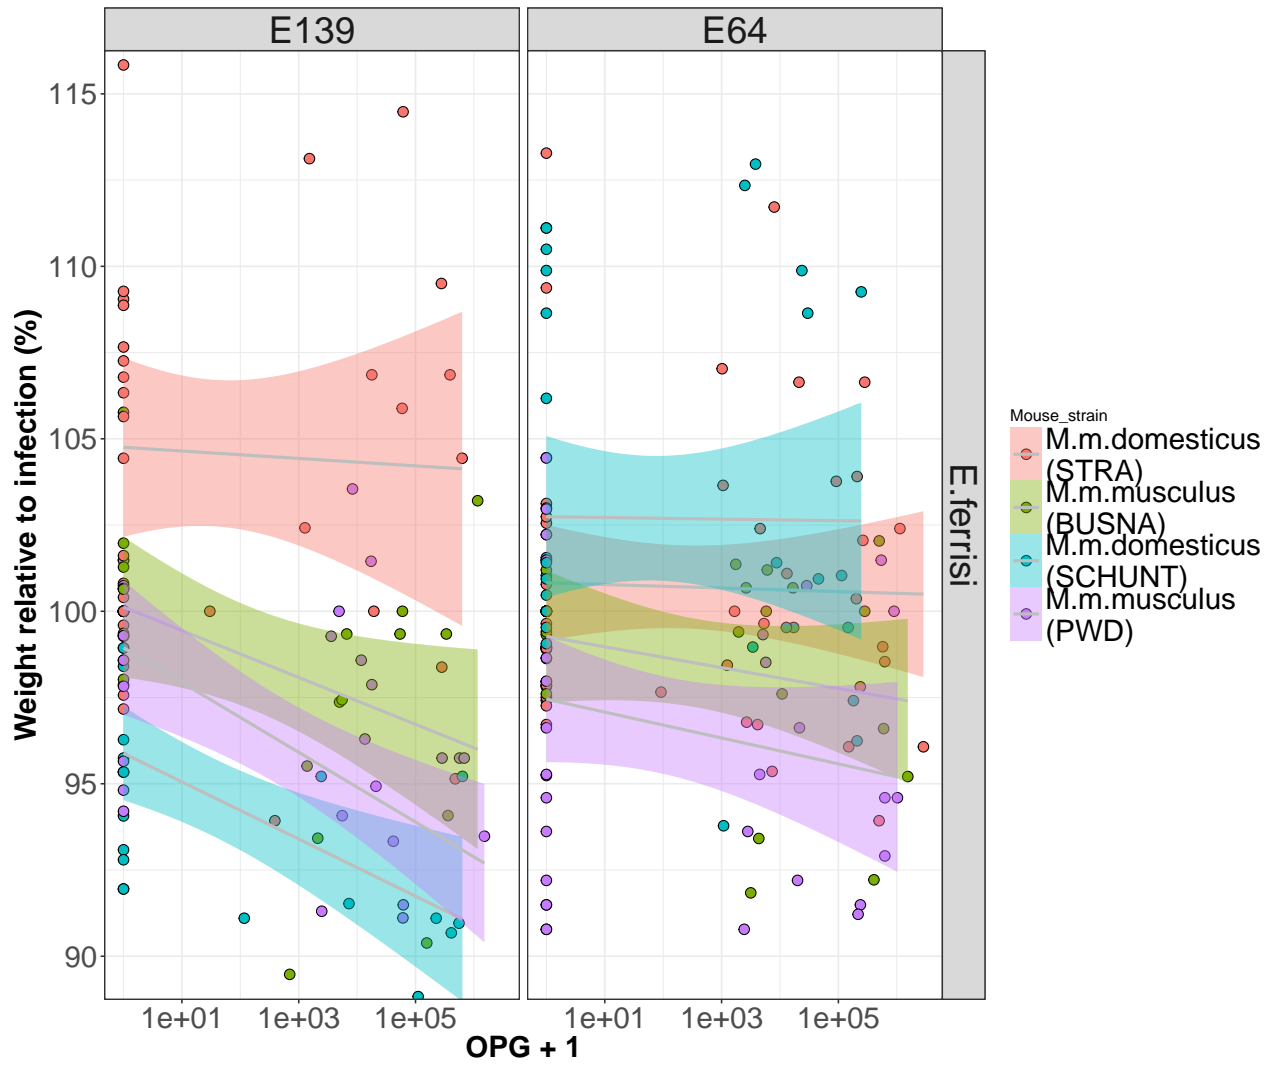

Figure 15: Weight as a function of OPG

Expe_004, June 2018, second batch Parental strains (F0) BUSNA, STRA, SCHUNT, PWD, infection with Eferrisi (E64 and E139)

1. Weight loss

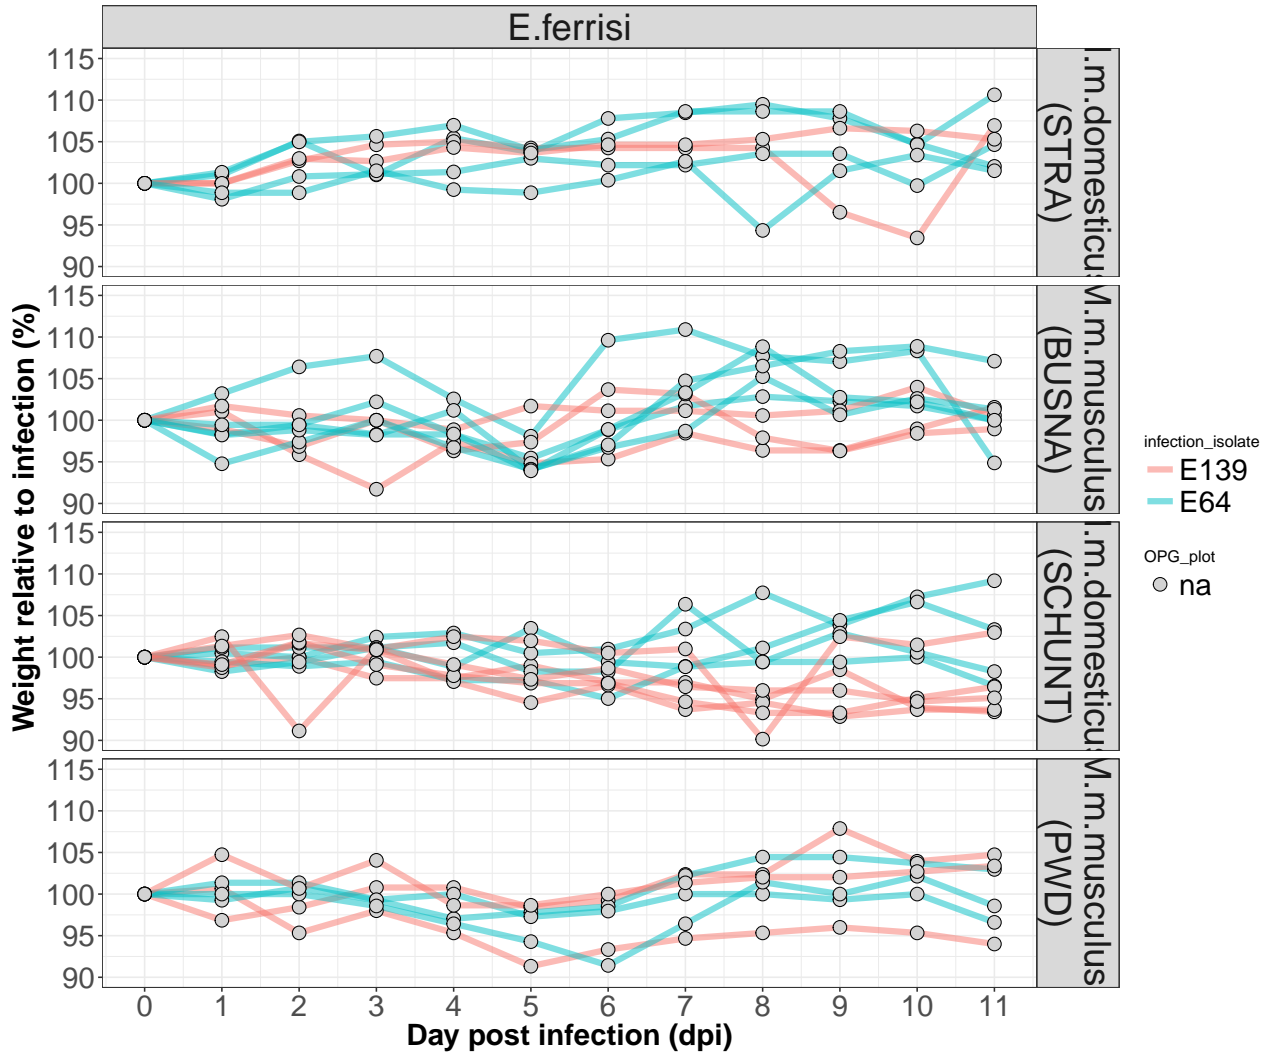

Figure 16: Weight along the infection experiment

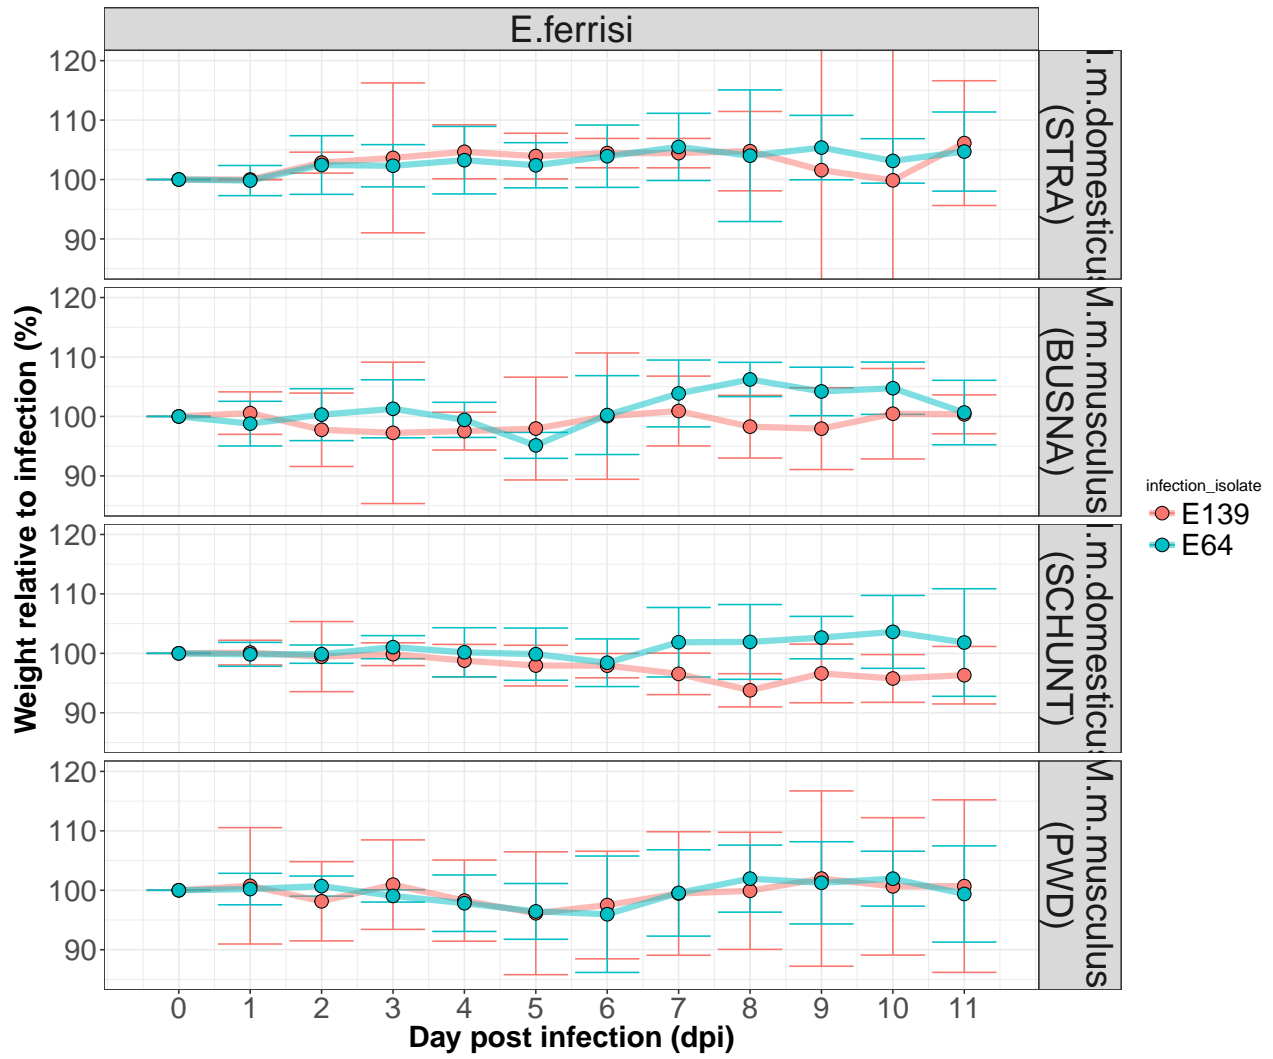

Figure 17: Weight along the infection experiment, mean and 95% CI

2. Parasite shedding
